Recognition of Commonwealth/State Capital Assistance for Financial Assistance towards Capital Projects

Plaque

At the completion of the project a plaque must be placed on the new or refurbished building that has received Commonwealth and/or State Capital Assistance. The following guidelines need to be observed:

1. The plaque must state that the project was partially funded by the Commonwealth and/or Queensland State Government.
2. If there is to be an opening, and the State Minister for Education or his representative, opens the building, the name of the person must be mentioned.

If the school is uncertain as to the wording of the plaque please check with the Executive Officer for Capital Assistance at the QIS BGA. A sample of wording is shown below.

Opening Ceremony

If there is to be an opening, the Queensland Minister for Education or his representative, is to be invited to the opening.

If the school was also in receipt of a Commonwealth Capital Grant for this project and the Commonwealth Grant was in excess of $1,000,000, an opening ceremony is required. See the Federal Government plaque requirements for additional information.

Other Acknowledgments

All school publications that include information about the Capital Project, must acknowledge the assistance of the Commonwealth and/or Queensland State Government.

Sample Plaque:

TO THE GLORY OF GOD
THE SURFSIDE COLLEGE
THE CASUARINA MULTI PURPOSE BUILDING

was dedicated and opened on
Thursday 19th October 2012

by
