

COOL AND HEALTHY

Your school
logo here

School: _____

Date: _____

Guide Reference: Step 5: Develop the input for your strategy

Objective: Use the sustainability framework to develop the sustainability strategy.

This theme focuses on the provision of cool and healthy environments that reduce energy use and improve learning outcomes. Options include natural ventilation and daylighting as well ensuring materials used on site do not have negative impacts on student health or ability to learn.

The toolkit should be used in conjunction with the Sustainability Guide available on the [QIS BGA website](#). Refer to the Sustainability Guide for further instruction and commentary on how to use this tool to establish your school's sustainability strategy.

WORKSHEET ACTIVITY

What are the key considerations for cool and healthy for your school (costs etc.)?

What cool and healthy initiatives have been done at your school before?

Complete the cool and healthy checklist and summarise key activities and findings.

What are the major challenges for cool and healthy at your school?

What are the major opportunities for cool and healthy at your school?

Is there any funding available for cool and healthy initiatives?

Set 1 to 3 priorities for cool and healthy schools.
