

NATURE BASED SOLUTIONS

Your school
logo here

School: _____

Date: _____

Guide Reference: Step 5: Develop the input for your strategy

Objective: Use the sustainability framework to develop the sustainability strategy.

This theme explores including nature-based solutions across a school to improve resilience and reduce reliance on man-made, engineered assets providing services on a school's campus. Bringing nature into schools can make spaces healthier, provide learning opportunities, relieve stress and cool the environment.

The toolkit should be used in conjunction with the Sustainability Guide available on the [QIS BGA website](#). Refer to the Sustainability Guide for further instruction and commentary on how to use this tool to establish your school's sustainability strategy.

WORKSHEET ACTIVITY

What are the key considerations for nature-based solutions for your school (costs, ongoing maintenance etc.)?

What nature-based solution initiatives have been done at your school before?

Complete the nature-based solutions checklist and summarise key activities and findings.

What are the major challenges for nature-based solutions for your school?

What are the major opportunities for nature-based solutions for your school?

Is there any funding available for nature-based solution initiatives?

Set 1 to 3 priorities for nature-based solutions for your school.
